**To Whom It May Concern,**

I am writing to provide a letter of reference for **TISSIMedica**, the manufacturer of the **Sterybox** air disinfection systems (www.sterybox.com), which have been widely implemented across healthcare facilities in Romania.

Over the past few years, we have had the opportunity to work closely with TISSIMedica and to oversee the deployment of approximately **1,800 Sterybox units** in hospitals throughout the country. During this time, TISSIMedica has consistently demonstrated a high level of **professionalism, reliability, and commitment to quality**.

The **Sterybox machines** have proven to be exceptionally **reliable and efficient** in maintaining high standards of air hygiene in sensitive medical environments. They are built to rigorous technical standards and are **well-regarded by hospital personnel** for their **ease of use, robust design, and consistent performance**.

One of the key strengths of TISSIMedica is their **strict adherence to delivery schedules**. Throughout our collaboration, all shipments have been carried out **punctually and efficiently**, ensuring that the installation and commissioning processes at hospitals proceeded without delays.

Feedback from the end users—primarily hospital administrators and medical staff—has been **overwhelmingly positive**. The perceived **value and quality of the Sterybox units** have contributed significantly to their widespread adoption and continued use across Romanian medical institutions.

Based on our experience, I can confidently recommend **TISSIMedica** as a **trusted partner and manufacturer** of high-quality air disinfection systems. Their dedication to excellence and customer satisfaction is evident in every aspect of their operation.

Please feel free to contact me should you require any further information.

Sincerely,

Catalin Stefan Aldea
